Subject: Richard (Dick) Martin

We are saddened to tell you of the passing of Dick Martin.

Dick came to work for Precision Technologies in 2012 as our Southeast Regional Sales Manager.

Dick was a Certified, and Licensed Professional Engineer with degrees from the University of Tennessee, and Christian Brothers University, as well as Additional Post-Graduate work in Business and Law. All this education and training served him well in his Machine Tool career.

In all cases, Dick distinguished himself as a professional, dedicated, and very successful Sales Engineer.

Personally, we will miss Dick very much. He was a first-class individual, and a great addition to Precision Technologies, Inc.
